

TELEGRAPHIC.

WISCONSIN, May 9, '98.

Washington, May 9.—(Government has at last received a long official despatch from Commodore Dewey. The victory of Dewey at Manila was complete. The Spanish fleet of eleven vessels was utterly destroyed. Three hundred Spaniards were killed and 400 wounded. Dewey did not lose a man and none of his ships were injured. Six American sailors were slightly injured. This is the first official news of the triumph of American arms in the Philippines. It was brought here today by the United States revenue cutter McCulloch. The McCulloch was with the American fleet when Dewey steamed into Manila harbor to engage the Spanish ships. The triumph of Dewey will rank with the most remarkable achievements in naval warfare. Seven American warships were in the conflict making a total of eighteen ships engaged.

The American ships were subjected also to the fire of shore batteries for several hours and yet lost no men. The Spanish force was overwhelming.

Port-au-Prince.—The Montgomery (a third rate and acting picket for Admiral Sampson) while cruising off Latrute at 5 o'clock last evening engaged a powerful Spanish cruiser, at long range and a running fight followed, the Montgomery drawing the Spaniard towards Sampson's fleet. Shots were exchanged while in sight from here. Both cruisers were under forced draught and headed for the Cuban coast. The Spanish fleet is supposed to be following the picket and general engagement seems imminent.

New York.—A special despatch signed by the World's war correspondent says dominican officials report heavy cannonading north of Monte Christi, 50 miles hence from San Domingo. It is believed that Admiral Sampson's fleet is engaging the Cape Verde fleet and Spaniards who were due at Porto Rico yesterday.

Madrid.—An official despatch from General Blanco at Havana says a lot of wreckage and debris are being brought to the coast.

It is reported that the Spanish fleet has arrived at Porto Rico. The Spanish loss at Manila was six hundred and eighteen killed.

Manzanar was again bombarded by the United States warships and several Spaniards are reported killed.

Several United States cruisers were injured by shots from the batteries at Havana.

Further news from Hong Kong confirms the reports of Dewey's success at Philippines.

Three hundred men were killed and a thousand injured in a riot at Milan, Italy.

Mrs. Sternman was acquitted on the charge of poisoning her husband.

Dalton McCarthy was thrown from his carriage and seriously injured.

Major Walsh, who was on his way out, is returning to Dawson City.

Prince Sawedlin shot his uncle, Prince Fand, at Cairo.

China has paid Japan the balance of her war indemnity.

The City of St. John's, Newfoundland, is to be fortified.

The Welsh coal strike is likely ended. Gladstone is growing weaker.

LOCAL.

TRAIN LEAVES CALGARY on time.

LARGE quantities of freight are going to the Landing every day.

The adjourned meeting of the town council will be held to-morrow night.

The annual meeting of the bicycle club will be held to-night in the Taylor block, to appoint officers for the ensuing year, etc.

A PARTY of five Englishmen from London, arrived on Friday's train en route to the north on a prospecting and shooting expedition.

THE Plaindealer, of South Edmonton, discontinued its daily edition on Thursday, after a brief existence of three days. Lack of support is the reason assigned.

CORR. MCNAIR, of the N. W. M. P. and a member of the Jubilee contingent, suicided at Warden, B. C., last week, by shooting himself. He was in a state of delirium caused by typhoid.

A MEETING of the curling club will be held in the rink to-morrow evening at 8 o'clock for the purpose of distributing prizes and winding up the business of the club for the season.

MCLEOD GAZETTE: Mr. B. C. d'Easum, of Castle, Montana, spent a few days in town this week and left yesterday for Fort Saskatchewan on a visit to his brother, Rev. Rural Dean d'Easum.

THE Lindsay Warder of a late issue contains a long letter from J. D. Hutton, late of that town, in which Mr. Hutton has many pleasant things to say about Edmonton and the Edmonton district.

THE play for the medals at the golf links on Saturday resulted as follows: Rev. D. G. McQueen 114, E. C. Emery 114, A. Taylor 117. The winners in the ladies competition were: Mrs. Cowie 71, Mrs. Braithwaite 80 and Mrs. Lay 105.

WETASKAWIN narrowly escaped being destroyed by a prairie fire on Friday night and Saturday morning last. The fire was unusually fierce and a large number of citizens of the town were called out by the police to assist in subduing the flames.

JOS. BRUNELLE returned from a trip to the Landing yesterday. About three quarters of the prospectors who were in camp at the Landing have left and many and varied are the styles of boats they use. The water is very low in the river. Freighters are now compelled to ford the Vermilion river since the bridge was burnt down.

A FRESHENED bound for the Landing sent back the following word, dated on Friday last: The bridge over the Vermilion river (35 miles out) is burnt down by prairie fire; also stable at stopping place at river.

There are ten teams here waiting to get through and fire all around. If the fire gets into the pens before we get through we may have to wait here a week.

The following war telegram poster in the office of a well known Toronto hotel the other day, caused quite an excitement in business circles: "It is reported that the American squadron has just captured a Spanish scow laden with a bunch of bananas and two dozen Spanish onions. Later, (5 p. m.)—Report confirmed, but a recount puts number of Spanish onions at one dozen instead of two."

THE twenty-fourth of May will be celebrated in South Edmonton by horse, foot and bicycle races, for which good purses are offered.

THE regular monthly meeting of the Hospital aid society will be held in the council chamber on Tuesday next the 10th inst at 3 p. m.

MISSISS. Walters and Douglas, of the Alaska Mining & Trading Company came in from the Landing yesterday and report boat building rushing.

R. P. DZEMBEK, now of Revelstoke, is road agent for a newly formed company organized there, for the purpose of manufacturing acetylene gas.

MRS. C. DE W. MACDONALD arrived on last Friday's train from New Brunswick, to join her husband, who has entered into the practice of law here.

ALEX. McDONALD arrived from the Landing on Thursday. He left there on Monday and on the road he met eighty-five teams laden with prospectors and their outfits, en route to the Landing.

THE Globe of April 30th contains an interview with Capt. Walker, the man who covered over 3,000 miles last winter on foot in the northern regions. The interview is sent by an Edmonton correspondent.

SOME wonderful samples of last year's wheat have been received at the immigration hall from Edmonton. They show 45 bushels from one rood of grain. The crop was 50 bushels to the acre.—Winnipeg Tribune.

THE hearing of the case of threatening to kill, brought against Walter Edwards by Neville White, has been proceeding before G. W. Geinard, J. P., for the past four days. It comes up for hearing again to-morrow at ten.

THE Toronto Evening Star says: "M. C. Cameron will be member of parliament for his riding but a few days more. As stated in the Star some time ago, he will within a week or more be appointed lieutenant-governor of the Northwest Territories. The liberals have already begun to organize and it is expected the election will be held during May."

TACTICS STRUCTURES, the aged musician who was tendered a benefit concert at the Landing, a notice of which appeared in our last issue, died at the Landing on Friday the 29th of April and was buried on the Saturday following. The deceased was well known here, having furnished the music for a number of dances held here during the winter of '96 and '97.

THE Mail and Empire, in order to furnish its readers with the most complete news of the Spanish-American war, has entered into an arrangement with the New York Herald and London Times whereby it will receive identically the same service as will be furnished those two papers. More than 20 special correspondents will be employed and a fleet of special dispatch boats is already in commission.

THE Orris Ober Company will arrive on to night's train and open at the Opera House to-night in the famous American comedy, "A Race for Congress." The company is claimed to be one of the annually strong one and their trip here is something in the nature of an experiment on the part of C. W. Sharp, of the Grand Theatre, Winnipeg, to see if the patronage received is sufficient to warrant good companies in coming this far out of the continent. It remains with the public to say whether the experiment will be repeated or not. By an error on the date slips the company were advertised to commence on Monday, the 10th; it should have read the 9th.

"CONFUSION."

In the three act comedy "Confusion" as played in the opera house on Friday and Saturday evenings, the semi local company, who staged the piece, scored an unqualified success. The play itself is a very laughable comedy, in which ludicrous situations and comical business combine to keep the audience amused, and that they were amused during its presentation here was amply proven by the unrestrained laughter which it aroused. To Fred J. Long's skillful stage-management, as well as his impersonation of "Christopher Blizzard," is due great credit, also to Capt. Holt, who kindly played a number of instrumental selections between the acts, in his usual masterly manner. The play was put on for the benefit of the hospital here and the exact receipts have not yet been ascertained.

THE EDMONTON ROUTE.

An Ottawa despatch of the 5th says: Before the Senate special committee Frank Oliver, M. P., gave evidence to prove that a pack trail could be constructed from Edmonton to the divide between the Liard and Pelly rivers, which he claimed was the beginning of the gold bearing area which extended down to Dawson, for \$30 a mile. The head waters of the Liard and Pelly rivers, he said was the objective point of parties going into the Yukon from Edmonton, and he believed that as good gold prospects existed there as further down the Pelly and Yukon rivers, in what is known as the Klondike. The distance from Edmonton to the divide between the Liard and Pelly rivers was only 740 miles, so that a pack train could be opened up, giving communication with the gold bearing district of the Yukon for \$23,000.

In the Commons Mr. Oliver asked for information respecting the police force that set out last autumn from Edmonton to the Yukon.

The Premier stated that two communications had been received from the party, consisting of Inspector Moody and seven men, and who had with them a number of horses and dogs. The first communication was dated December 2, and at that time the party was on the Peace river. The intention was to push on and use the horses as far as possible. Then they were to be slaughtered and used as food

for the dogs. Last night the Government received a second communication from the party. At the time the party was encamped at Fort Graham, on the Findlay river, where the winter had been passed, as it had been found to be impossible to proceed, owing to the snow being five feet deep, and also because food for the dogs was not obtainable. The men were well, and in good spirits. The party expected soon to push on toward its destination.

NEW ADVERTISEMENTS.

WANTED. Some good second-hand pony harness, complete; also a good second-hand Mexican saddle. Reply to Bulletin office. 55-56

NOTICE. The annual meeting of the Edmonton Bicycle Club will be held this evening at 8.30 in the west rooms in the Taylor block. By order. JNO. E. GLIAM, Sec. Treas.

THE WAR.

(SPECIAL TO THE BULLETIN.)

Washington, May 6.—Secretary Long, of the war department, has received no word from Commodore Dewey yet, concerning the engagement off Manila. When interviewed, however, he said he felt no apprehensions over the lack of good news and did not believe the fleet was shut in as feared. In the first place reports were not expected with the Manila cable cut and furthermore no fears were entertained as to Dewey's ability to maintain his position. There was no doubt, the secretary said, that Commodore Dewey's fleet had annihilated the Spanish fleet and with this much accomplished Dewey was master of the situation at Manila. It was suggested to Long that shore batteries at Cavite and Cortegedro Island might be a serious menace to the United States fleet, but the secretary did not share that view, holding that the strength of the Olympia and other ships was more than ample to make him master of Manila bay and its surroundings.

Old Point Comfort.—On board the flagship Brooklyn. The report that the flying squadron was under action last night at midnight is without foundation. There was no action whatever, no gun was fired and no call from quarters was sounded as has been intimated. Commodore Schley has a patrol boat out near Cape End and relies entirely on it for information.

London, May 6.—The Paris correspondent of the Daily Mail says: I hear from indisputable authority that five of the Spanish warships including the battleship Pelayo and the fine cruiser Alfonso XIII have not yet been supplied with ammunition. This was the cause of the delay in sailing from Cape Verde and will probably compel the squadron to return to Cadiz.

London, May 7.—The Vienna correspondent of the Daily Telegraph says that apartments have been reserved at an hotel here for the Queen Regent of Spain in case she arrived before apartments had been prepared for her in her brother's palace. Telegrams from the Austrian ambassador at Madrid, Count Dubusky, indicate that the Queen Regent is only waiting for a suitable moment to quit.

Two iron clads, two cruisers, and three transports will leave Cadiz forthwith to chase the Yankees from the Philippines and then bombard the Californian shores. At a cabinet council to-day, over which the Queen Regent presided, Premier Senor Sagasta explained the war situation and announced the save arrival at Porto Rico of the Spanish trans-Atlantic companies steamer, Alfonso XIII, having on board, it is said, reinforcements of troops and a very valuable cargo including ammunition and supplies.

Hong Kong, May 7.—The despatch boat, McCulloch, arrived here to-day with news of the Manila battle. The American losses were only six wounded while the Spaniards lost three hundred killed and many wounded and all their ships were damaged. Dewey reports none of the United States fleet injured.

Washington, May 7.—Secretary Long is of the opinion that the first news from Admiral Sampson will be the defeat of the Spanish fleet near Porto Rico. He says he expects word on Monday sure.

The Germany embassy at Madrid reports receiving advices from Hong Kong announcing that Dewey effected a landing at Cavite after a fresh bombardment.

It is semi-officially ascertained that the operations in Cuba will consist principally of a series of filibustering expeditions for furnishing arms and supplies to the volunteers and Cubans until fall.

Key West.—Advices state that Havana harbor has been strengthened, anticipating a besieging fleet.

New York.—Three hundred members of the thirteenth regiment of Brooklyn refused to volunteer.

Rome, May 7.—The Pope has written the Queen Regent that it is impossible to defeat the power of America. He blessed the King and Queen Regent, but not the Spanish arms.

Chicago, May 7.—The troops are sending their baggage away and are preparing to move on short notice.

New York, May 7.—Commodore Schley's squadron is expecting orders to join Admiral Sampson at any minute.

Martique, May 7.—It is reported that a large number of Spanish ships were sighted bound north.

Madrid, May 7.—The bread riots and grumbings against the government continue.

Key West, May 6.—Commodore Watson was ordered to-night to release the Lafayette, the French ship seized yesterday while running the blockade, and send her to Havana under escort.

YUKON RAILWAY.

Montreal, May 4.—Wm. Mackenzie, of Mann & Mackenzie, when asked if the firm intended taking any further steps in connection with the Yukon railway, which the senate killed, replied they were doing absolutely nothing about the matter one way or the other. He had no idea what was likely to become of the thing. Mackenzie admitted there was still a large force of men at work, which had not yet been recalled, for the reason that it is impossible to reach them at present

time, owing to the conditions of travel of the country. They had received their instructions when they went north, and as they have not been countermanded, he supposed they were still at work, and would remain there until such time as it was possible to get word of the condition of affairs to them. Communication would soon be opened again, and they hoped to be able to recall the force at an early date.

WHAT IS CONTRABAND?

The customs department is besieged from various quarters for information as to whether goods which are contraband of war may be shipped from the old country to the States by way of Canada. Under this head would come such lines as coal, powder, sulphur, gun-cotton, fire arms, etc., and the question at issue is as to whether the neutrality proclamation contemplates any interference with ordinary commerce even in these lines. The customs authorities are inclined to the view that everything except fire-arms may be allowed to pass through in the ordinary line of commerce. A decision is not yet definitely announced.

Lamoureux P. O., April 25th, 1898.

Columbia Bicycles..

Both chain and chainless are the standard of the world in their respective classes.

A most complete line of Wheels in stock, ranging in price from \$14.00 to \$50.00. Correspondence solicited

...TSDALL'S GUN STORE, VANCOUVER.

Don't Pay till you get the Goods!

Don't Cross Great Slave Lake

TILL YOU GET THERE.

We are not asking you to pay now for towage by steamers which are not built yet, but John Fraser, the well known and reliable boat builder, is now at work building our steamers at Athabasca Landing, and if you and our crews all get safe to Fort Resolution, as we all expect to, we will pay you across the lake at fair rates, (one cent per pound) and you can pay us then.

Edmonton, April 11th, 1898.

See our Agents at the Landing:
Augustus Bracher, J. K. Cornwall, D. C. MacDonald.

Fort Saskatchewan MILLING COMPANY.

BRANDS:

"Alberta Patent"
"Alberta Strong Bakers"
"Our Daily Bread"
"X X"

Wholesale Orders a Specialty. Traders would do well to enquire for prices before purchasing elsewhere. Once used always used. More bread to the sack than any other Flour manufactured in Alberta.

FORT SASKATCHEWAN AND STURGEON MILLS.

Post Office—Fort Saskatchewan.

GOLD MACHINES

To get best results, get your Washing Appliances made by the direction of a practical miner.

Machines on view at the Skating Rink buildings. Very neat and light to pack in knock down shape.

A. E. POTTER.

South Omaha, Neb., March 1, 1898.

To whom it may concern:

Speaking of A. E. Potter, of Edmonton, as a practical miner, I have only to speak of personal experience. The washing apparatus which he designed and manufactured for me last season, 1897, gave entire satisfaction. It was capable of most thoroughly washing, separating and saving the gold and black sand of a cubic yard gravel per minute. It was a most perfect separator, separating stones from pay dirt first, then the gold, and lastly the black sand.

THOMAS KELLY, M. D.

THE PLEBISCITE.

Ottawa, May 3.—In the commons this afternoon after Hon. Clifford Sifton had introduced some Northwest bills, Hon. Sydney Fisher moved the second reading of the plebiscite bill. With regard to the date of the vote he said it would be at an early date as consistent with the other business of the country and the convenience of the electors. Hard cider, which was a fermented intoxicating liquor, would be included in the class of intoxicants, but the mere juice of apples would be exempt.

The bill was read a second time after further debate, passed through committee and stands for the third reading. Sir Wilfrid Laurier said the vote would be taken probably at the end of summer or in the early fall.

TROOPS FOR THE YUKON.

An Ottawa despatch of the 3rd says: The detachment for the Yukon contingent from the various stations of the permanent forces arrived here to-night to mobilize, previous to continuing their journey west. The contingent is made up of 140 men from the Royal Regiment of Canadian Infantry; 40 from the Royal Canadian Artillery, and 15 from the Royal Dragoons. The infantry and artillery detachments have arrived and the cavalry will be picked up at Winnipeg en route west. A very large quantity of stores have been sent ahead by rail and at Fort Selkirk a canteen will be opened that will be a miniature departmental store. Each man will be supplied with the Oliver equipment and every provision has been made for the comfort of the men.

THE ELEVATOR QUESTION.

Ottawa, May 3.—The settlement of the elevator question affected by Rev. Mr. Douglas bill in the railway committee of the house to-day provides that grain may be loaded from flat warehouses and cars, two hours being allowed for loading, and fifty cents an hour demurrage on all time over that. Under this satisfactory arrangement a farmer can haul his grain to a flat warehouse by wagon and when ready, ask for a car, which can be easily loaded in two hours, as the flat warehouse will be equipped with a simple and inexpensive hoisting apparatus. The farmers will, under this arrangement, be independent of the elevators. Some members of the committee were to accept, in lieu of this, that twenty-four hours should be allowed in which to load without demurrage, but that would be of no service to the farmers. They could not get a car and haul and load in twenty-four hours, or anything like it.

Messrs. Rutherford, MacConnell and Davis co-operated with Mr. Douglas to get the bill through and are pleased at the success of their efforts.

NOTICE

IN THE SUPREME COURT OF THE NORTH-WEST TERRITORIES, NORTHERN ALBERTA JUDICIAL DISTRICT.

IN THE GOODS AND LANDS OF JAMES SAMUEL ROWLAND, Deceased.

Creditors and others having claims against the estate of James Samuel Rowland, deceased, are, pursuant to the order of the Hon. Mr. Justice Houslay, made herein on the 18th day of April, A. D. 1895, hereby notified to send or deliver on or before the 1st day of June, A. D. 1895, to Archibald Rowland, of Edmonton, Alberta, Administrator of the estate of the said deceased, their claims against the said estate, verified by statutory declaration, together with a statement and particulars of the securities (if any) held by them.

And further notice is hereby given that pursuant to the said order and the provisions of the judicial ordinance and amendments thereto, at the expiration of the time above fixed, the said Administrator may be at liberty to distribute the trust estate or any part thereof, among the persons entitled thereto, having regard only to the claims of which he (the said Administrator) has had notice, and shall not be liable for the trust estate or any part thereof, so distributed to any person of whose claim the said Administrator shall not have had notice at the time of the distribution of the trust estate or any part thereof.

LIFE IN DAWSON.

The following letter, descriptive of
Dawson and the life of its inhabitants,
was received last week from Const.
Dundas, now of the Dawson detach-
ment of the mounted police, by a
friend in town. The letter is dated
Fort Herchmer, Oct. 24th, '97, and
reads in part as follows: You want
a geographical description of the
country, well it is all right in that
respect only it is a good deal too big.
If you expect a graphic description I
am afraid you will be disappointed,
though I might say that it is a very
mountainous country, in fact it would
be all mountains only for the rivers,
the largest of which is of course the
Yukon. The geography of this coun-
try, or at least that part of it dealing
with the routes in and out, is at pre-
sent bothering bigger heads than mine.
Every way at present known has
many drawbacks. The way around
by the mouth of the Yukon and up
here by steam boats was a failure this
summer, as some of the boats did not
get up at all and the supplies which
they intended to bring up and which
it was expected they would bring, as
they were badly needed, lie down at Ft.
Yukon, four hundred miles down the
river from here. As a result we have
pretty near a famine. Whiskey is
about the only thing that can be
bought and of that the supply seems
very fair. You can see from this that
the geography of coming up the river
cannot be depended upon to bring in
food and clothing to supply an
enormous and ever increasing popu-
lation, such as we have here at the
present time. The trouble seems to
be too much geography—a little
stretch of level land and of course the
river has to go and try to cover it all.
result: Steamboat can find no chan-
nel deep enough to get through so
unloads and goes back to the mouth
for another load, saying: "Perhaps
water will be higher next summer."
Miner comes in here from his claim
to get the grub stake he ordered
months ago—finds there is none here
—thinks of the short winter, only
eight months, swears, and says he
doesn't want to go 400 miles to
board for the winter, but winds up by
having to go.

To come here the other way, known
as coming down the river, is a pretty
hard way to bring in much freight as
you have to go overland at least 25
miles to get to the head waters of the
Yukon and, short as the distance is,
of course there has to be a mountain
in the way. Of course they call it a
pass, yes, you pass over the top. Then
when you are at the head waters
which is a small lake, you are still
560 miles from here and you have to
build your own boats to paoceed down
in and it is a pretty dangerous thing
for a man without experience in this
kind of thing to attempt, as there are
some lakes to cross on which you
might get shipwrecked and there are
some rapids that are pretty bad.

Quite a few get drowned. Others
probably, get off with their life and
lose all their outfit. In one case we
saw two men who had a good boat
and about a year's supplies. Their
boat struck a rock and they lost it
and all that was in it. One of the
men was carried into an eddy where
he got to shore, the other got tangled
up in some rope, the rope got caught
on a rock and the water was running
so swift it washed all his clothing off
before help came.

This is a country which you can
never find out all about until you
come and see it—and I am very

sorry I ever let my curiosity lead me
to find out. It would be better if you
could buy anything at a reasonable
rate. A man got here the other day
with some fresh beef and the police
secured 4,000 pounds for \$3,000 and
that was a bargain. I saw another
man offer \$100 for 100 candles and
he didn't get them. Coal oil has sold
for as much as \$50 a gallon. I saw
socks which costs \$4 a pair and any
kind of moccasins cost \$5 a pair.
Some men are making big pots of
money, but others are not thinking
so much of money as of something to
eat.
